

Containers and pallets

# Ice Cold Benefits

From the fisherman, to the processor, to the consumer  
all benefit with improved quality

Quality starts at the point of harvest,  
as soon as the fish is taken out of the water

No matter the size of your vessel or the length of time you are at sea fishing, the benefits  
and savings are enormous using Saeplast PUR boxes on board with ice

## FRESHNESS GUARANTEED with Sæplast PUR Containers

- Ensure quality by layering ice and fish at the point of harvest
- Yield higher quality by maintaining proper temperature
- Due to reduced handling of your catch improved quality will result

Volume	Litres 65	US Gal. 17

1. Maintaining proper temperature is extremely important to the quality of fish, it is much easier to control temperature.
2. Firmer and fresher fish will yield better prices.
3. Time is reduced by quick and efficient off-loading at the wharf or dock.
