Lighten Up Your Workload

Lightweight – hygienic – reusable – spill resistant

For those situations that require a lightweight stacking lid for our Saeplast PE 750 and 875 containers, the **DMPC4048SWL** has been designed. Being made of food grade polyethylene has a lot of benefits for you:

- Sustainability – reusable over and over again
- Cost Savings – instead of using throw away poly covers
- Floor Space - free up valuable floor space by stacking containers and lids 2-high*
- Employee Safe – lightweight nature is safer for lifting

* Stackable 2 high only – for higher stacking, please use the triple wall DMPC4048L PE lid

Model: DMPC4048SWL

Description: Reusable single wall lid to fit Saeplast DMPC750 & DMPC875 Triple Wall PE Containers

Color: Available in one color only – light grey
